CHEMCLEAN Q

DESCRIPTION

Foaming Sanitiser and Cleaner

CHEMCLEAN-Q is an alkali based cleaner and sanitiser. **CHEMCLEAN-Q** is formulated with a careful blend of alkali and specialty surfactants designed to dissolve and remove dirt, grime, fat and grease substances. It also contains quaternary ammonium agents designed to give a broad range of bactericide protection and sanitising properties for all types of hard surfaces. **CHEMCLEAN-Q** is effective at removing oils and fats from surfaces such as benches and floors, while leaving the surface sanitised. AQIS approved for use in food preparation areas.

DIRECTIONS FOR USE

General Sanitising / Cleaning: Use 5-10 mls / litre apply to surface

Foam Cleaning: Use solution of 15-20mls / litre of water.

NB: For sanitising of food preparation areas, rinse product contacting surfaces with potable water after use.

Do not mix with other chemicals.
